SUMMARY

Passionate and results-oriented Software Developer specializing in MERN stack development. Skilled in building responsive, user-centric web applications with clean, scalable architectures. Proficient in both front-end and back-end technologies, with a strong aptitude for quickly adapting to new tools and frameworks. Thrives in collaborative, fast-paced environments and excels at solving complex technical challenges to deliver high-impact solutions.

EXPERIENCE

MERN Stack Developer

Lahore, Pakistan

[Acrosoft.io](https://www.acrosoft.io/)

10/2023 - Present

A company specializing in software development

- Developed responsive web applications using React.js and Next.js, significantly reducing page load times and improving user engagement.
- Resolved cross-browser compatibility issues to ensure consistent performance across multiple platforms.
- Diagnosed and fixed technical issues as needed.
- Maintained high code quality by adhering to clean code principles and development best practices.
- Collaborated closely with teams to integrate APIs.
- Delivered performance enhancements and bug fixes within existing codebases to ensure system stability.

MERN Stack Developer

Rawalpindi, Pakistan

[Digital Sensei Technologies](https://www.digitalsensei.com/)

07/2022 - 10/2023

A company focused on innovative digital solutions

- Collaborated with UI/UX designers to implement responsive interfaces for MERN Stack applications.
- Utilized Git for effective version control and collaboration across teams.
- Developed RESTful APIs using Node.js and Express.
- Integrated third-party APIs to extend application functionality.
- Designed efficient MongoDB schemas to manage application data.
- Resolved client-side issues related to browser and cross-platform compatibility.

Associate Software Developer

Rwp , Pakistan

[TechStep](https://www.techstep.com/)

07/2021 - 05/2022

A technology solutions provider and training institute

- Developed and maintained dynamic web pages using HTML, CSS, and JavaScript.
- Created interactive UI components using AJAX.
- Designed and managed MySQL databases for various web applications.
- Optimized existing code and improved performance.

SKILLS

React, Nextjs, React Native, TypeScript, Redux, MUI, Tailwind, Ant Design, Scrum, Agile

Node js, Expressjs, Mongo db, PostgreSQL, Redis, Mongoose, Sequelize, REST, Socket.IO, AWS(EC2, S3, RDS)

PROJECTS

Jump Recruiter

A U.S.-based recruitment platform enhancing the job application process

- Contributed to the development of a recruitment platform using Next.js, React, Laravel, and PostgreSQL.
- Developed dynamic, responsive user interfaces using React and TypeScript.
- Integrated RESTful APIs for real-time job listings and applications.
- Developed advanced job search filters for jobseekers and employers.
- Created a customizable CV builder to simplify the application workflow.
- Maintained dual interfaces for jobseekers and employers.

JumpResume Builder

An AI-assisted resume creation platform

- Led UI development using Next.js and Laravel with PostgreSQL.
- Integrated RESTful APIs for seamless data handling.
- Implemented drag-and-drop resume editing and support for multiple profiles.
- Added AI-based suggestions to assist users in resume optimization.
- Built resume parsing functionality to extract details from uploaded files.

Tredella

An Ecommerce solution for wholesale and retail markets

- Built a scalable Ecommerce platform with Next.js, Node.js, Express.js, PostgreSQL, Sequelize, and TypeScript.
- Developed responsive web-applications for both buyer and seller.
- Implemented dedicated portals for sellers and administrators.
- Focused on performance optimization and user role management.

Dira-Immobilier

A real estate platform focused on apartment listings

- Developed a MERN Stack application for property sales and document sharing.
- Integrated Elasticsearch for location-based filtering.
- Implemented map-based property search with real-time data rendering.
- Enabled users to search apartments by area and preferences with real-time results.
- Integrated interactive maps to enhance user experience and property discovery.

EDUCATION

BS-Computer Sciences

PMAS, Arid Agriculture University

Rawalpindi, Pakistan

01/2019 - 05/2023

LANGUAGES

English (Proficient)

Urdu (Proficient)

INTERESTS

Learning

Continuously exploring new technologies and frameworks to improve development capabilities.

Problem Solving

Passionate about tackling complex challenges and improving system performance through efficient coding practices.
